

ATHUL NATH M

Frontend Developer

Palakkad, Kerala — 679337 • +91 8304 907 955 • myself.athulnath@gmail.com • LinkedIn • Portfolio

PROFILE

Frontend Developer with hands-on experience at ISRO LPSC building internal web applications and software solutions using React, Django, Python, and JavaScript. Skilled in developing responsive user interfaces, integrating backend services, implementing component-based architectures, and delivering database-driven applications. Strong interest in UI/UX and building reliable user-focused products.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL
Frontend: ReactJS, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design
Backend: Django, REST APIs, API Integration, Authentication (SSO), RBAC
AI / ML: OpenCV, TensorFlow, YOLO, Faster R-CNN, Image Segmentation
Databases: MySQL, SQLite
Tools: Git, GitHub, Postman, Figma, Adobe Illustrator

EXPERIENCE

Software Development Trainee 05/2025 – 05/2026
LPSC/ISRO, Thiruvananthapuram

- Developed responsive frontend interfaces using HTML, CSS, JavaScript, and integrated Django REST APIs for internal workflow systems
- Developed a secure document viewing platform with access controls, restricted browser environment, and chatbot integration
- Implemented database-driven workflows including SSO authentication, RBAC, dynamic forms, and response management
- Built an AI-assisted weld defect detection platform using YOLO, CNN, and Faster R-CNN with analytics dashboard
- Collaborated using Git-based workflows to maintain and improve internal software platforms

Software R&D Intern 08/2024 – 02/2025
Aviasys Technologies Pvt. Ltd., Ernakulam

- Contributed to software R&D initiatives at an autonomous delivery drone startup, developing and deploying responsive web solutions from Figma designs into production
- Built and maintained frontend features while collaborating across product and development workflows in a fast-paced startup environment

Web Development Intern 05/2023
i-Team, Mananthavady

- Maintained and updated ecommerce websites, developed a PC configurator, and redesigned product listing pages using Wix and JavaScript
- Supported technical operations including PC assembly, operating system configuration, and system setup activities

PROJECTS

KL15 Depots (ReactJS • PWA • JavaScript • Geolocation) Live | GitHub

- Built a PWA for KSRTC passengers with nearby depot discovery and searchable listing of 93 depots
- Implemented offline support, mobile-first UI, direct call actions, and booking integration

Augmented Whiteboard (Python • OpenCV • Computer Vision) GitHub

- Developed a virtual air-drawing application using real-time hand gesture tracking

Automated Timetable Generator (Python • Scheduling • Figma) GitHub

- Co-developed conflict-free timetable generation and designed interactive wireframes
- Shortlisted among Top 30 projects in South India at NewGen IEDC

EDUCATION

Bachelor of Technology in Computer Science & Engineering 05/2024
Jawaharlal College of Engineering & Technology
CGPA: 7.55

Higher Secondary — Computer Science 03/2020
Govt. Model HSS, Perinthalmanna
Score: 80%
